

INTERNATIONAL
SOLAR
FUELS
CONFERENCE | JULY 6-10
2017
SAN DIEGO, CALIFORNIA

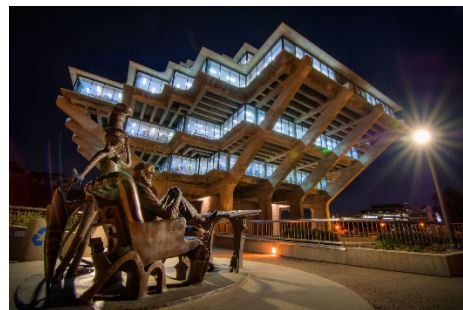

Registration for the 2nd International Solar Fuels Conference (ISF2) at UC San Diego is now OPEN!

WHEN: July 6-10, 2017

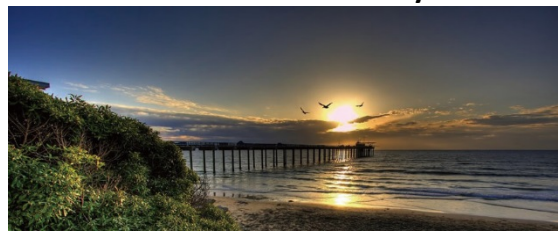

WHERE: Price Center, UC San Diego, La Jolla, CA

This five-day conference covers solar fuels in a very broad sense, from basic theory on photosynthesis and chemical catalysis to production of fuels from biological and chemical processes. Scientists working in emerging areas of study like the direct reduction of carbon dioxide to fuels, and the interface between biological and chemical processes, are especially encouraged to participate. The format will feature both plenary talks and concurrent topical tracks with speakers selected from abstract submissions.

In addition, poster sessions, and a reception and other social activities will provide an opportunity for building a strong network. Evening networking receptions will feature poster sessions and flash poster talks. The conference will close with a public lecture at the Price Center, followed by a conference dinner at the renowned Birch Aquarium at Scripps Institution of Oceanography.

Registration for the ISF2 Young Meeting is now OPEN!

WHEN: July 5-6, 2017

WHERE: SME Building, UC San Diego, La Jolla, CA

PhD students, postdocs and other early career scientists are invited to present their research at the Young Meeting. This meeting will provide a forum for young scientists to share and discuss their research amongst their peers in a more familiar atmosphere.

Deadlines:

- **Early bird registration:** Receive a \$100 discount if you register by **3/31/2017**. Regular registration deadline is **6/25/2017**.
- **Abstract Submissions:** Submit an abstract to be considered for either an oral or poster presentation. [Submit your abstract](#) by **3/31/2017**.

Visit the [event website](#) to view the list of speakers, agenda, and information on submitting an abstract. We look forward to seeing you at this year's meeting. Space is limited so [register now!](#)
